BOIL WATER ORDER LIFTED FOR STELZER COUNTY PARK WATER SYSTEM

Test Results Show No Bacteria in Drinking Water Supply

The County of San Diego Department of Environmental Health (DEH) has lifted a Boil Water Order for the Stelzer County Park in Lakeside, effective immediately. The Boil Water Order was issued on July 13, 2006 due to a presence of total coliform bacteria in the water distribution system. Total coliform bacteria can come from soils and other sources in the environment, and can indicate a problem with the water supply. The order was issued to ensure all water used by park attendees was free from contamination.

The water system was disinfected and flushed by a Certified Water System Operator. Four follow up samples were reported as **absent** for total coliform bacteria. The Boil Water Order is hereby lifted.

For more information please call Randy Ford County, Parks Manager at (858) 694-3963.
